Zawyeh Gallery presents works of renowned artists Bashir Makhoul, Hosni Radwan, and Nabil Anani at Abu Dhabi Art 2023

Abu Dhabi, UAE — Zawyeh Gallery is delighted to announce its participation in Abu Dhabi Art 2023, showcasing exceptional works of three highly acclaimed artists: Bashir Makhoul, Hosni Radwan, and Nabil Anani. The exhibition, set to take place from November 22 to 26, 2023, at Manarat Al Saadiyat, Abu Dhabi.

Bashir Makhoul, presents three remarkable series of works: Skein, Preoccupation, and Scarcity. His works are centered around the complex interplay between conceptual and aesthetic art, hard-edge paintings, geometric sculptures, and realistic depictions, all within the tapestry of painful histories, political realities of home, and personal and collective narratives. The work predominantly features abstracted depictions of houses, symbolizing themes of home, belonging, and displacement.

Hosni Radwan, in his latest series titled "Jerusalem: The City of Paradoxes," uses charcoal, acrylic, and gold leaf on canvas to express his profound fascination with the city of Jerusalem. Radwan's work reflects the charm and contradictions of Jerusalem, a city that brought him closer to safety and belonging, reminiscent of his childhood in Baghdad. His paintings vividly capture the city's unique architecture, colors, and way of life, offering a heartfelt connection to his past and his present.

Nabil Anani, presents a new series of works depicting the Palestinian landscape in all its natural beauty. Anani's work showcases the picturesque hills of Palestine without the disruptions of Israeli settlements, bypass roads, roadblocks, walls, and watchtowers. Anani's fascination with the Palestinian landscape and rural life is beautifully translated into his canvas. The work explores the aesthetic of nature while incorporating unique natural media such as straw, spices, dry flowers, and plants to experiment with color and texture.
